

## OUR COMMUNITY

*"big-city conveniences with  
small-town warmth and hospitality"*

The Bryan/College Station community has a combined population of more than 130,000. The twin-cities area is a dynamic region which is experiencing the strongest population and job growth rates in its history. B-CS was even named one of "America's Pockets of Prosperity" by the national magazine *Buisness Week*.

Located at the heart of the Dallas/Fort Worth, Houston and Austin/San Antonio triangle, residents have access to a variety of metro-area events across the state.

The theater complex on the Texas A&M campus, as well as the Reed Arena/Special Events Center and George Bush Presidential Library and Museum, bring an extensive list of cultural and recreational opportunities to the area.

## DUAL CAREER SERVICES

Texas A&M wishes to encourage the employment of dual career couples. We know that attracting and retaining exceptional employees often depends on meeting the needs for two careers.

Our Dual Career Service is designed to assist the partners of faculty and professional staff members. It is helpful to make contacts with the Dual Career Services Coordinators listed on the website as part of the campus visit process. For more information on who qualifies, how the service works and how to get started, visit:

# diversity & unity

## BUILD A COMMUNITY

TEXAS A&M UNIVERSITY  
College Station, TX

# Reinvesting in the future.

Texas A&M University endeavors to sustain a place of preeminence among public universities while respecting the long-standing traditions of the institution. In support of this aim to maintain and seek further excellence, President Robert Gates has made a commitment to hire more than 400 new faculty members in the next five years.

*“Diversity means that we know and understand that people come with a background, with a culture, with a wealth of influences that have shaped their lives, and every single one of them brings something we can learn.”*

- Karan Watson, Dean of Faculties

We hope you will consider becoming a new member of the Texas A&M University faculty.
