The first annual Probability and Statistics Day is hosted by the South East Texas Chapter of the American Statistical Association (SETCASA) along with the Department of Statistics at Texas A&M University and STATA Corp.

Saturday, March 24, 2012
Blocker Building, Room 120
9:00 am - 3:00pm

A celebration of probability and statistics research is open to all active researchers in the Bryan-College Station area. Researchers in the social sciences, sciences, engineering and humanities will all have an opportunity to share their achievements. Appropriate subject matter includes but is not limited to, interesting data analyses, theoretical developments, novel methods of teaching probability & statistics, software developments and important unsolved statistical needs. Each talk will last 15 minutes. It is a great way to share your love of all things probability and statistical with other like-minded persons in the Bryan-College Station area. Come out and enjoy!

KEYNOTE SPEAKERS:
Prof. Ken Bowman
Department Head, Department of Atmospheric Sciences

Prof. Raymond J. Carroll
Distinguished Professor, Department of Statistics

Prof. Victor Willson
Department Head, Department of Educational Psychology

E-mail Cliff Spiegelman or Bani Mallick at psday2012@stat.tamu.edu if you wish to speak or attend. If you wish to speak, please send a title and brief abstract. Depending on the turn out, lunch may be provided or participants can have lunch in nearby North Gate.
